

HEALTH ALERT!

Patient suffers from MCS (Multiple Chemical Sensitivities) Serious & varied symptoms with exposure to fragrances, cleaning products, hand sanitizer, new carpet/paint +++

FRAGRANCE

Do NOT Enter WITH ANY FRAGRANCED PRODUCTS ON!

Patient is NOT a Fragrance Crash Test Dummy Don't just 'come & see if it affects the patient'.

FRAGRANCED & ALLERGEN PRODUCTS INCLUDE

Purell
Lotion
Soap
Hand Sanitizer
Deoderant
Shampoo/cream rinse
Shower Gel
Hair products

Perfume / Cologne
Laundry Soap
Dry Cleaning
Shaving/after shave products
Cleaning/sanitizing products (home & industrial)
Fresh (voc) paint & carpet
And many many more

GOOD NEWS! THERE ARE NON-FRAGRANCED VERSIONS OF ALL OF THESE PRODUCTS!

Some Non-fragranced products available for your use in patient's room, check with patient & family.

IRRITANTS / ALLERGENS

Offgas for a long time.

Solvents, Irritants & Fragrance offgas more when wet.

Doesn't 'disappear a few hours after you put it on' or install it or clean with it.

WEARING or USING ALLERGENS in the ROOM

Will not 'just be ok'.

Will harm the health of the patient.

Causes serious bronchial constriction, migranes, & other serious symptoms.

Symptoms, despite treatment, will not stop until the allergen (source of the fragrance) is completely removed from the patient's environment.

!!? WOULD YOU JUST USE PENICILLIN OR LATEX & FIGURE AN ALLERGIC PATIENT COULD 'JUST DEAL'??!
